OXYHOSP (Hospitality Front Office), the modular solution covering the services you targeted to your customers :

- Linear TV and Radio
- On Demand services
- EPG
- Hotel information
- Interest (touring, ...)
- Messages
- Languages settings

OXYHOSP is easily manageable from the Back Office tool **OXYBO**. This tool offers a modular configuration to extend or reduce functionalities (service, menu, submenu, ...), a specific or local customization (languages, channels, ...) to monetise the offered services to your customer.

OXYHOSP supports multi-screen mode on every kind of devices like :

- Television set
- Set-Top-Box
- Mac & PC
- Telephone
- Tablet

ABMWARE built partnerships to ensure the best integration of its **OXY** middleware solution whatever the device.
